

Red Pitaya Acrylic case assembly

Regardless whether you bought your Red Pitaya Acrylic case in a kit or as a separate add on, you will need to manually assemble it.

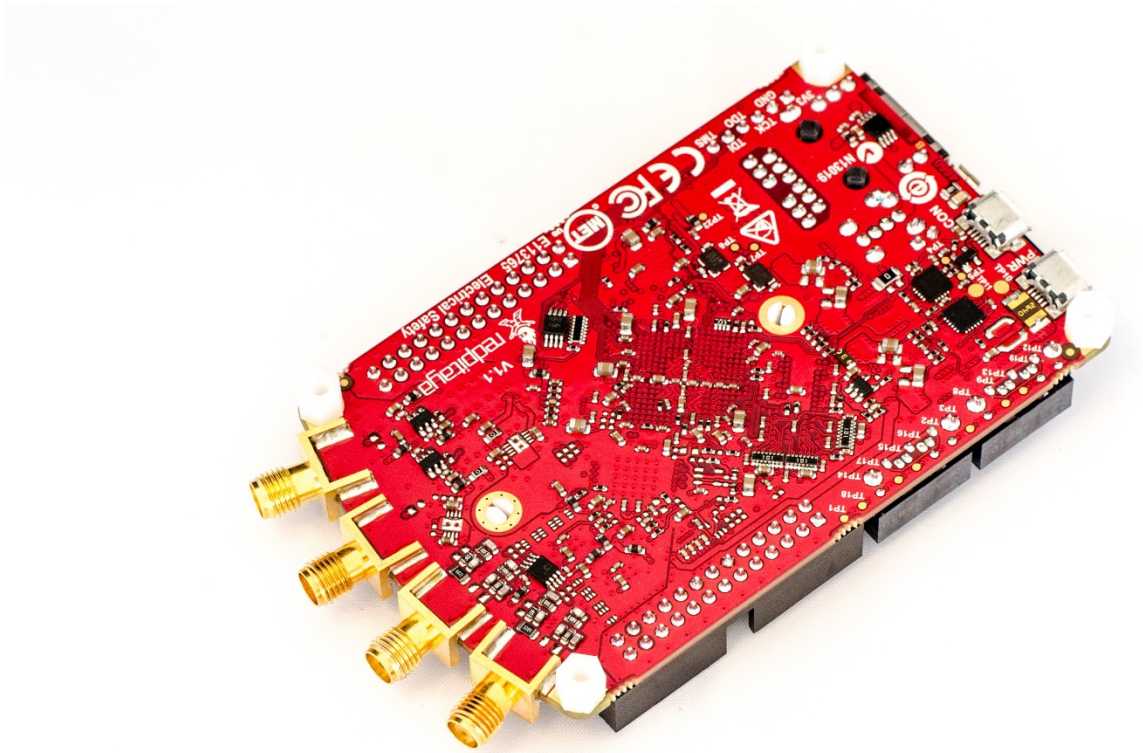

Red Pitaya Acrylic Case assembly parts.

It includes:

- 8 screws that close the housing
- 4 long brass standoffs and 4 short ones that hold the board
- 4 rubber feet for secure positioning on the desk

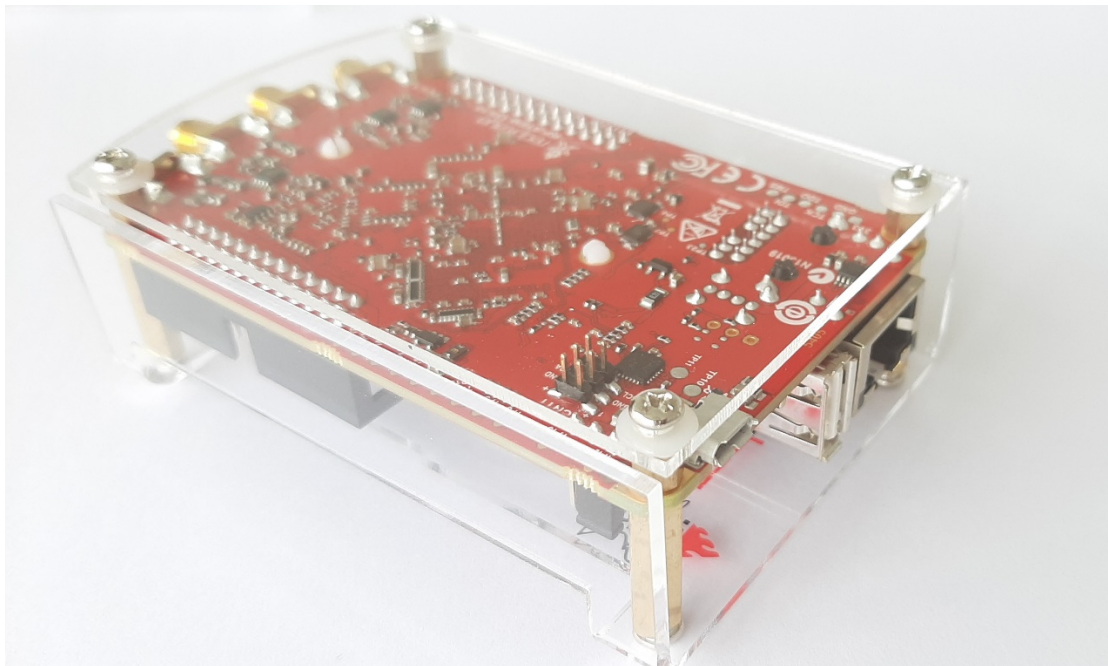

Assembly

1. Remove small, white plastic feet by pressing the clips at the top, with a small pair of pliers and push the feet down.

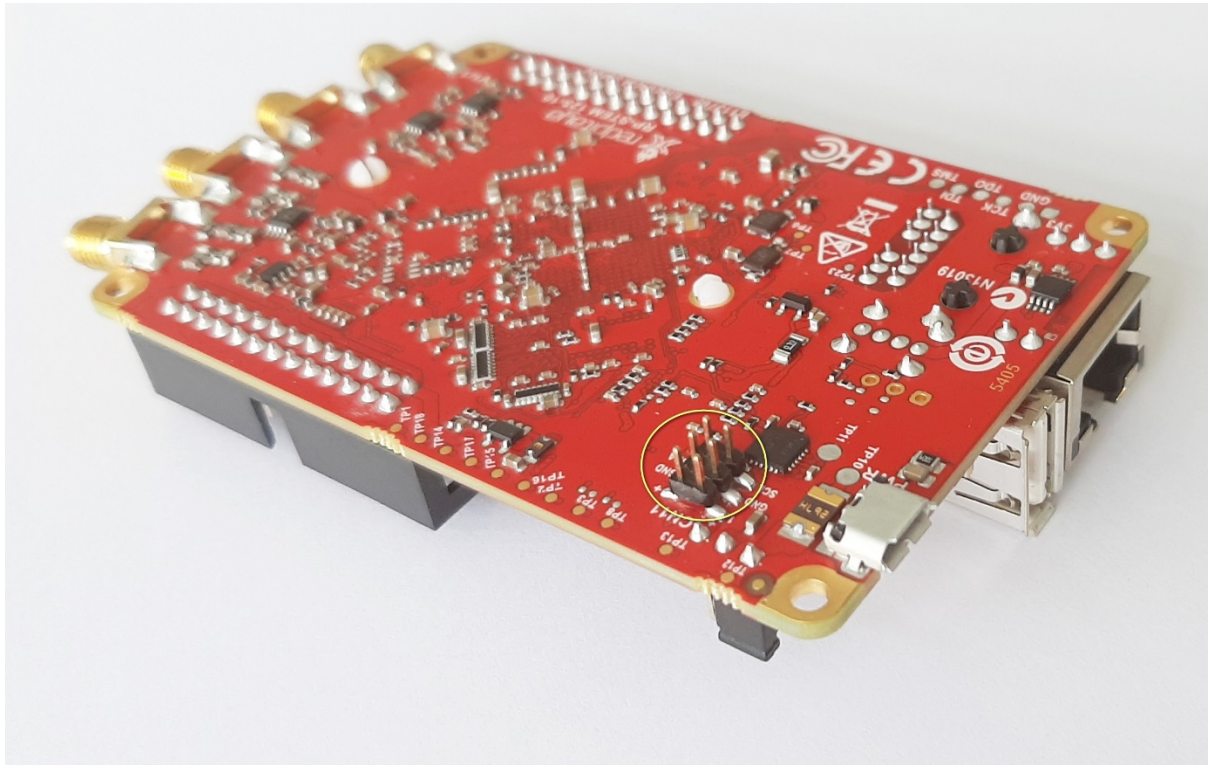

Bottom of the Red Pitaya board showing the plastic feet.

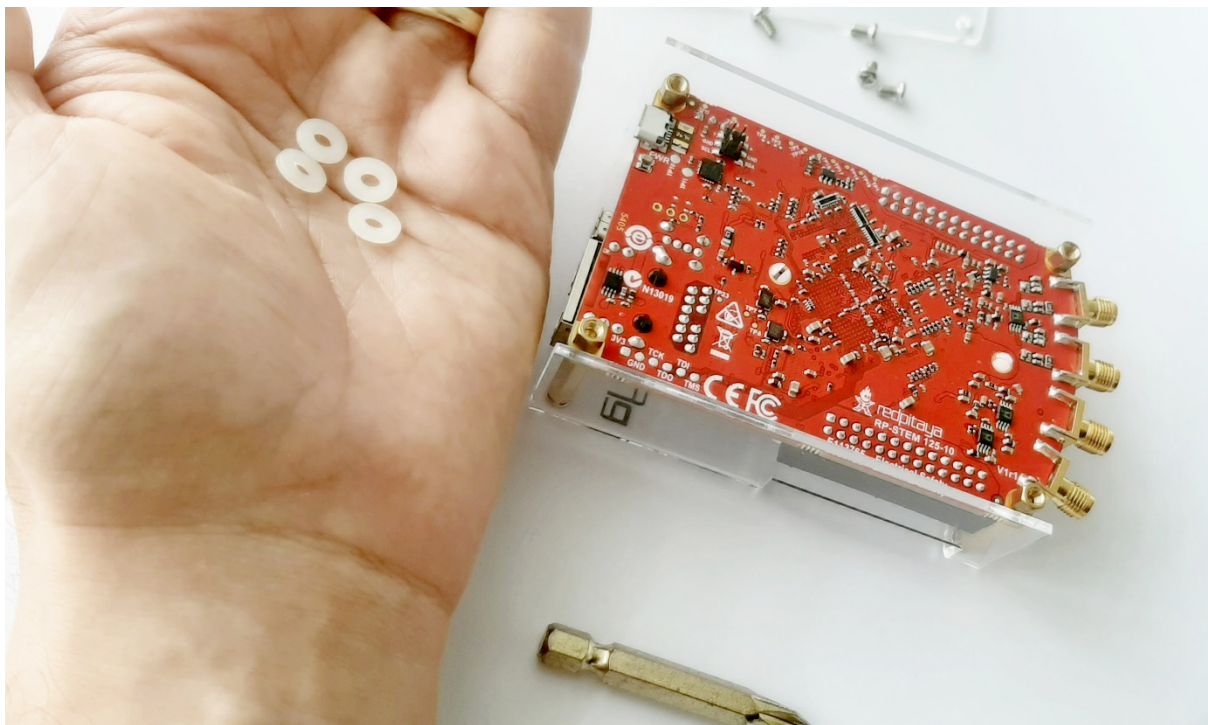

2. Mount the brass standoffs as seen in the picture below:

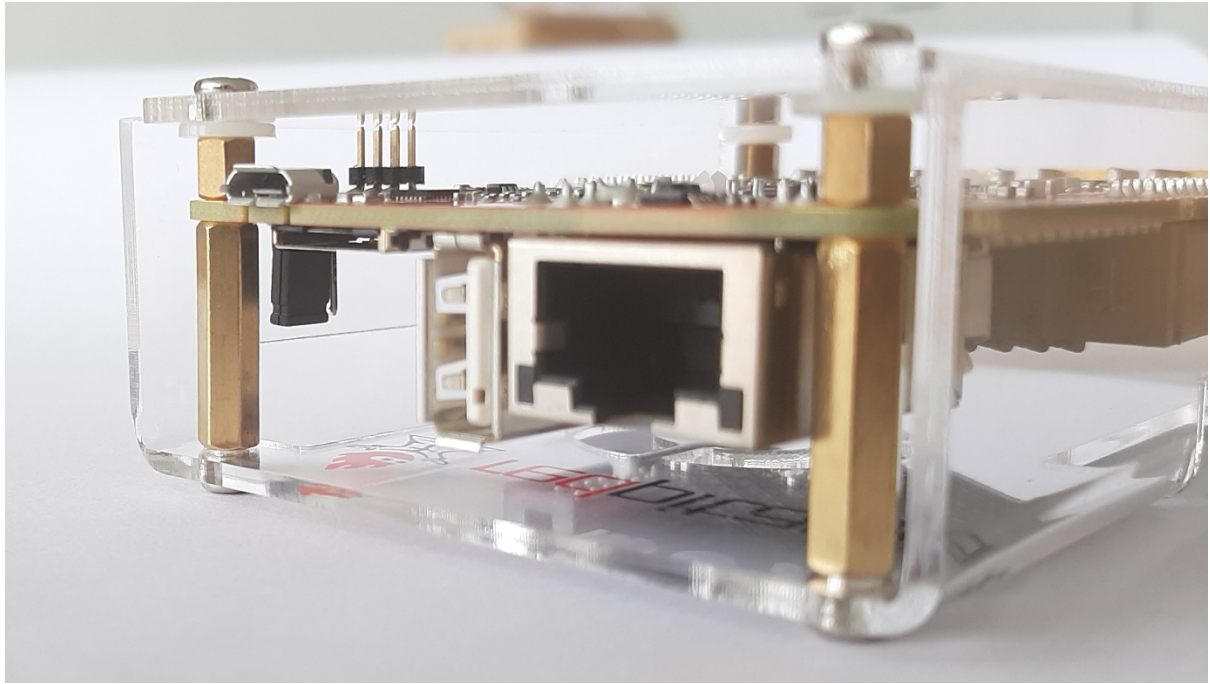

2.1 If you have the model where the 6 pin connector is present please use included white plastic washers.
